Course Overview

The **Quasafe Level 3 Award in Adult Basic Life Support in Clinical Practice (RQF)** is intended for everyone who works in a clinical practice environment including administration and support staff. The Learner does not need to be a clinician.

The qualification and learning outcomes are based on the recommendations of the Resuscitation Council (UK) and a distinguished panel of experts in emergency medical care.

Successful learners will attain the practical competencies needed to provide BLS and automated external defibrillation to a casualty in a clinical setting.

What's Covered?

- Conducting a scene survey
- Conducting a primary survey on a casualty
- Identifying when to administer CPR
- Demonstrating CPR using an adult manikin
- Demonstrating safe use of an AED
- Considerations when administering CPR and using an AED
- When to place a casualty in the recovery position
- How to place a casualty in the recovery position
- Continually monitoring breathing whilst in the recovery position
- Demonstrating techniques for choking
