Course Overview

The **Quasafe Level 3 Award in Basic Life Support for Adults, Children and Infants in Clinical Practice (RQF)** is intended for everyone who works in a clinical practice environment including administration and support staff. The Learner does not need to be a clinician.

The qualification and learning outcomes are based on the recommendations of the Resuscitation Council (UK) and a distinguished panel of experts in emergency medical care.

Successful learners will attain the practical competencies needed to safely use an AED and perform BLS interventions on adults, children and infants in a clinical setting.

What's Covered?

- + Conducting a scene survey
- + Conducting a primary survey on an adult, child and infant
- + Identifying when to administer CPR
- + Demonstrating CPR using adult, child, and infant manikins
- + Demonstrating safe use of an AED on an adult, child, and infant
- + Considerations when administering CPR and using an AED
- + When to place a casualty in the recovery position
- + How to place an adult, child, and infant in the recovery position
- + Continually monitoring breathing whilst in the recovery position
- + Demonstrating techniques for choking
